Kiwanis-Exchange Contest For Chest Funds Planned

Competition between Redwood City service clubs on the baseball field, bowling alleys, and golf courses is nothing unusual, nor is such a thing as a quiz contest between two clubs.

But a new kind of competition was announced Tuesday between the Kiwanis and Exchange Clubs.

It will be a race for solicitation of the Redwood City business district for the Community Chest.

The Exchange Club Tuesday night accepted the invitation of Chest Campaign Director Donald L. Bogie to meet the Kiwanis Club in the contest. The latter club had already accepted the invitation.

As a result, the business district will be divided and the Kiwanis Club, headed by Pres. Carl E. Ward, will canvass 158 stores; the Exchange Club, headed by Dr. R. O. La Berge, 156 stores.

Three goals will be strived for: Largest number of successful contacts; largest

amount subscribed; first to complete solicitation.

The business district solicitation will begin Oct. 2, the day following the kick-off dinner at Sequoia High School. The residential district competition is scheduled to begin Monday, Oct. 6, under direction of Lions, 20-30 and other clubs and organizations.

Besides accepting the chest invitation, the Exchange Club last night voted at its board of control meeting to continuing co-sponsorship of the Sequoia High School Vocational Placement Service with the school, if agreeable to the board of trustees. A letter is to be sent by Secty. Lloyd W. O'Donnell to the board asking continuance of the project.

At the club meeting, Frank Griffin showed colored films of the recent ice follies. Next Monday the club will join other clubs of the district in a barbecue at Fredericks Brewery, San Jose.

One-Time Owner of Large Holdings in R.C. Dies

A man who once owned a large share of Redwood City—including the property where Sequoia High School is now located—died in virtual obscurity in his modest Sacramento home last Friday, it

was learned here today.

He was William J. Dingee, 87, one-time millionaire whose financial failure in 1909 was news of national importance.

Mr. Dingee began his career as an Oakland real estate man. He made his first fortune by forming a rival to the Contra Costa Water Co. He established cement plants at Santa Cruz, Napa and in Pennsylvania.

Mr. Dingee lived in Redwood City for many years. Among his holdings were the property west of the railroad which is now the Upper Broadway business section, and the acreage which has become the Redwood Highlands district. His home here was on the 40-acre estate that in 1923 was purchased by the Sequoia High School District for its new school. The purchase was made from Mrs. William Pissis, widow of an architect who had bought the property from Mr. Dingee.

Redwood City's water reservoir No. 1, at the end of Brewster Ave., was built by Mr. Dingee and

Novel Car Makes Learning Easy

It's easy to learn to drive when the student uses the dual control Pontiac (above) that recently was shown at the University of California. Inspecting the car are Ronald Anderson, Sequoia High School teacher, (extreme right) and Dr. F. R. Noffsinger of the American Automobile Association (second from left). Two sets of brake and clutch pedals (shown below) allow the pupil to sit behind the wheel while learning. If he makes an error, teacher takes control by using the extra set of pedals. Sixty such cars have been put into use in high schools and colleges to which they are being loaned by Pontiac and General Motors.

given to the City of Redwood City in the early 1900s.

Until purchase, by the Redwood Highlands Co., of the then undeveloped land surrounding the high school site, the area was known as Dingee Park.

Mr. Dingee was a political power in San Francisco prior to the collapse of his financial empire due to over-expansion. He was an intimate of Mayor Eugene Schmitz of San Francisco and served as a park commissioner there, where he owned a home. He also had two mansions on New York's Fifth Ave.

In 1921 Mr. Dingee petitioned for bankruptcy in San Francisco, listing assets of \$150 and debts of \$822,000.

In death, Mr. Dingee will return to the Peninsula, for his body was to be brought today from Sacramento for burial at Cypress Lawn Cemetery, Colma.

Eight Cases In Belmont

Eight cases of scarlet fever have been reported in San Mateo County within the past month—seven of them in Belmont and the other in Daly City—Dr. C. C. Gans, county health and welfare director, reported.

The first case appeared in Belmont on Aug. 9 and since that time four Belmont families have been involved, Dr. Gans said.

The Daly City case is the latest to have developed, having been reported to Dr. Gans' office Tuesday.

Two of the Belmont families have been released from quarantine while the restrictions still are being applied to another. The fourth case, Gans said, proved to be a matter of wrong diagnosis.

The health director said that the state law requires that persons having scarlet fever—as well as their immediate attendants—be isolated by quarantine. He said, however, that the law permits a person who is directly in contact with the patient to enter and leave the quarantined residence at will unless he is employed as a handler of foods.

Dr. Gans said the illness was under control and there was no immediate fear of its spreading. There were 28 cases of scarlet

Japanese Plan Exhibit At County Fiesta

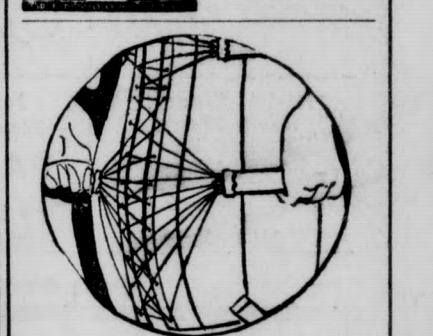

San Mateo County Chapter of the Japanese-American Citizens League will enter an exhibit in the San Mateo County Fiesta, Sept. 18-21, according to Pres. Fred Ochi.

A design submitted by Ochi was approved and accepted by the league's board, and Sam Kariya of Belmont has been appointed chairman of the chapter floral exhibit.

The exhibit will cover the entire space allotted, with red, white, and blue flowers (mostly chrysanthemums), being used. It will depict the 100 per cent backing given to the USO drive, the Red Cross, and the Defense Savings Bonds by the league.

An exhibit entered by this chapter won first prize at last year's fiesta.

fever in the state as of Aug. 30, he reported.

NOTE: Graduate corsetiers in attendance to fit or advise you without cost or obligation. Phone Redwood 4060 or Palo Alto 21244 for appointment.

**R. C. Merchants Warned
Against Bogus Coins**

Redwood City police said Tuesday that no local reports had been made to indicate that any of the counterfeit coins that have been flooding Santa Clara

had shown up here.

Local merchants, however, were warned to be on the lookout for coins in 25- and 50-cent denominations. Theaters and stores in Santa Clara have taken in dozens of the coins in the past few days. Chief of Police George

The age of a rattlesnake can be determined from the rattles only when the snake still possesses its first rattle.

Fallon of Santa Clara reported that the coins were "very bad imitations."

MENLO PARK NEWS NOTES

Mr. John Turner and wife came up from Modesto to attend the celebration this week. The Turners left here 40 years ago and became wealthy in fruit growing in the South.

Two residences started in the Flood Tract this week that will cost \$8000 each when completed. They are being erected by San Francisco lawyers.

Dr. Million, who occupied the Agard house on Oak Grove Ave., passed away last week at the San Mateo Hospital after a brief illness. He lived here, with his wife, for about two years. In his younger days he was a prominent physician in the East.

John F. Stahl, former assistant postmaster here, who made himself famous by hiking from Panama to Austin, Tex., a short time ago, has just completed a trek over El Camino Real from Sonoma to the mission in San Diego. When here he resided on Pine St.

Edward O'Keefe and Joseph McLaughlin motored to Modesto on a hunting trip last Saturday. Both secured the dove limit. They report the birds plentiful but one must be a good shot to secure them.

The festivities attending a Week in Old Menlo will close this Saturday evening with a dance in Blue Moon Hall. The banquet, given in honor of those pioneers who have lived in Menlo Park for the past 50 years and over, was attended by 20-odd residents who gave short addresses reminiscent of old times. Prof. Olsen was chairman and gave a short address welcoming the old timers, a few of whom had resided in the community for 60 years. The

**Advertising Drive
Boosts M-D Products**

An extended advertising campaign featuring M-D Tissue and M-D Sanitary Napkins is about to be released by the Pacific Coast Paper Mills. The fine quality of M-D products is the main theme.

The Pacific Coast Paper Mills has perfected a product in M-D Tissue that is unequalled for softness, absorbency and hygienic qualities. Wherever introduced, it meets with the approval of the buying public and the M-D sales policy has made it a most profitable article for the retail grocer and druggist to handle. The same standards of quality are maintained in the companion product, M-D Sanitary Napkins.

The makers of M-D Tissue and Sanitary Napkins believe in advertising as revealed by their year-after-year advertising programs in the newspapers. Every year more and more dealers are finding out that M-D's original plan for maintained profits does work and the public is willing to pay an established price for a quality product in which it has confidence.

The steady increase in M-D sales has proved conclusively that the consumer demands a product that is foremost in quality.

**Grand Jury Indicts
Former R. C. Resident**

Oris T. Homan, 26, who resided for a short time in Redwood City, yesterday was indicted by a federal grand jury in San Francisco for impersonating an army officer. Homan's bail was set at \$2500 on a charge of impersonating Lieut. Thomas Holman of the army air corps. He also was charged with passing a fictitious check.

Relatives here said Homan had been employed in steel plant in South San Francisco but was supposed to be in the East at the present time, showing army authorities a diesel supercharger which he had invented.

When we see the glow of a wild animal's eyes in the dark, it is always reflected light.

Five New Subdivisions Opened Here in Year

Approval of five new subdivisions — after recommended changes were made — constituted the major activity of the Redwood City Planning Commission during the past fiscal year, according to a report released by City Manager C. L. Dimmitt.

Studies of reports submitted for a program of eliminating dead-end streets and a report on a long range flood control project submitted by the city engineer also were handled by the commission. An expenditure of \$193.43 was made by the commission during the year.

Dimmitt pointed out that recent action of the commission in recommending the rezoning of property in the rear of the courthouse eliminated setback requirements in the block bounded by Marshall, Hamilton and Bradford Sts., and Middlefield Rd. only.

In the Navy at Redwood Sunday

Bud Abbott and Lou Costello appear in their funniest picture, "In The Navy," at the Redwood Theater for three days commencing Sunday. In the supporting cast are Dick Powell, the Andrews Sisters and Dick Foran. Companion feature is "Bad Man of Deadwood," starring Roy Rogers.

Parade, Show on Separate Days Planned This Month

Elaborate plans for both a parade and a show—on separate days—are being made for Redwood City's observance of National Dog Show Week, Sept. 21-27.

The committee handling the affair announced today that plans are being made to stage the parade at 2 p.m. Sunday, Sept. 21, and the show at 1 p.m. Saturday, Sept. 28.

The parade ushering in the week's events will be open to children under 15 years of age. Prizes will be offered for (1) the child with the smallest dog; (2) the child dressed in the most unusual or different costume; (3) the child with the dog with the longest tail in proportion to the length of its body.

While participants should be in costume, this is not essential. All dogs in the parade must be controlled by or led on a leash. This provision has been made as a precautionary measure. Any animal of questionable temper will not be permitted to enter.

The dog show which will close the week's observance will be for amateurs only. There will be two classes: one for pets of various breeds and one for pure-bred dogs. Dogs that have been shown professionally or have won blue ribbons in a large, recognized show cannot compete for prizes, although they may be entered for exhibition purposes, so that the public may become familiar with the champion and prize-winning dogs of the community. A "blue ribbon parade" of these dogs will complete the show.

Judging of the dogs, which must be on leash and handled by a non-professional dog handler, will begin at 1:30 p.m. In charge of judging pure-bred dogs will be Bobbie Burns Berman of San Francisco, well-known dog judge. E. Lloyd Lomax of Atherton will judge the pets of various breeds. Mrs. Lomax will judge the boys' handling class and Miss Lenore Thomson the girls' handling class.

Only the ring manners which can be directly attributed to a handler's efforts will be used as a basis for judging children's handling classes.

"This means that the way in which a dog follows its handler on its leash and responds to simple commands of following, turning and stopping are to form the basis on which prizes will be awarded," explained Miss Thomson.

Because National Dog Show Week is a non-profit activity and there are necessary expenses such as printing and providing for equipment, and since no admission charge can be made to the dog show, a registration fee of 25 cents will be made for each dog for the show.

On the committee arranging the local observance are Miss Thomson, Mr. and Mrs. Lomax, Dr. and Mrs. E. W. Paul, Mr. and Mrs. Charles Mayhew, Poundmaster Alan McKay and Recreation Director Alfred (Red) Morton.

Annulment Sought By Divorce Defendant

Replying to his wife's divorce complaint filed last Aug. 17, Homer Wilson Ware, Oakland shipyard employee, Monday petitioned the superior court at Redwood City to annul the marriage on the grounds the Mexican ceremony was technically invalid.

Mrs. Adele C. Ware, a resident of Belmont, charged her husband with habitual intemperance, willful neglect and cruelty and asked that her maiden name, Adele C. Paulding be restored.

In his petition, Ware, 28, and 21 years his wife's junior, charged the marriage in Mexico City Feb. 17, 1938, was not valid, and further accused his wife of revealing before their questioned marriage that she was unable to bear children. In addition, he alleged she had "a propensity for sleeping with a dog in bed."

Defense Stamps Now Sold in Local Stores

Sale of defense savings stamps is now under way at many local grocery stores.

The Central Coast Counties Association of Retail Grocers Inc., which covers Santa Clara, San Mateo, San Benito, Santa Cruz and Monterey Counties, announced that 703 stores in the five counties have been supplied with publicity material and instructions for handling the defense campaign.

By federal proclamation, the week of Sept. 5 to 20 has been set aside for a nationwide campaign to push the sale of defense savings stamps. These will be sold in 10c, 25c and 50c denominations.

For example, \$18.75 in defense stamps may be exchanged for one United States defense bond worth \$25 in 10 years.

Finland consists of about 35 per cent forest and 11 per cent lakes.

Local Officers Aid Police Ball Plans

Sgts. W. H. (Bud) Thorpe and S. E. Douglass of the Redwood City Police Department have been named to the committee arranging the 13th annual ball of the Peninsula Peace Officers' Association, Lieut. A. L. (Barney) Hilton of the Daly City department, president of the association, announced.

Officer Everett Pence of San Mateo is general chairman. The ball will be held at the Bay Meadows clubhouse Sept. 27 for the benefit of the association's widows' and orphans' fund. Tickets are being sold by all departments in the county and in Sunnyvale and Mountain View.

Other committeemen are Sgt. Leroy Hubbard, Atherton; Chief E. J. Wheeler, San Carlos; Officer August Terragno, South San Francisco; Chief William Maher, San Bruno; Deputy Chief John J. Hartnett and Capt. R. C. (Jack) Theuer, Burlingame; Of-

Officers Nominated By Belmont Chamber

BELMONT—At the Belmont Chamber of Commerce meeting Tuesday night Harry Welch was nominated again for president, but declined the nomination. Other officers nominated were Arno Fairhurst for president; George McPherson, first vice president; Laura Roeder and Annette G. Girard, second vice president; Frank O'Brien, treasurer; Dr. Lee R. Gambitz, Dr. Gaston Pope, Robert Ross and Peter F. Ross, for board of directors. Nominations will close at the Oct. 14 meeting, when the election will be held.

No secretary was named to replace Pearl Marguerite Buchanan, who was recently married to Andrew Stevenson Heibron and is now making her home in

Seattle where her husband is an insurance broker. Regret was expressed over the loss of their secretary and money was voted last evening for a gift to be sent to Mrs. Heibron.

A communication will be sent out to try to get all citizens to attend the next meeting, when the increased tax rate will be taken up.

Two hundred "clock stars" are used to check constantly naval observatory time.

EAST P.A. SHACK BURNS
MENLO PARK — An unoccupied five-room shack at Palo Verde Ave. and Runnymede St. in East Palo Alto was destroyed by a fire of undetermined origin Sunday. Equipment and crews of the Menlo Park Fire District arrived too late to control the blaze before the fire had spread throughout the building before an alarm was given.

Lions are legally classed as vermin in Africa.

Our word for after-dinner coffee, demitasse, is taken from the French.

Mrs. Roger Watkins Home Planning Economist to Solve Living Problems Locally ---

MRS. ROGER WATKINS

Conducting the Redwood City Tribune's Better Home and Garden Institute Study.

It is with pleasure the Tribune presents to local home and garden lovers the advice and help of Mrs. Watkins. Many home-makers who have been puzzled over just what is right for a certain type of garden color scheme, a type of wall paper or drapery plan for a sunny or dark interior will not have to worry their way through this problem. Mrs. Watkins will correspond with those interested in her service which of course is paid for by the members of the institute whose aim is better living and better comfort in home and garden arrangements.

Arrangement

Desk Can Be Focal Point Of Interest in Home Room

Most authorities on interior decoration agree that every room needs a focal point of interest. Often it is the grouping of furniture in front of the fireplace; sometimes the unusual treatment of a major wall space; again, it might be the way in which a particular corner of the room is furnished.

Today, more and more people consider a desk as an important factor in creating the right "we live in this room" look, essential to a charming living room.

CHALLENGE TO DESIGNERS
Furniture used for writing purposes, from the tremendous, massive Georgian breakfront bookcases to the fragile espartoires of milady's boudoir, was given special attention by all the master designers of the past. Again this season, furniture dealers have brought their talents to bear in the fashioning of desks and breakfronts which combine the unusual style notes essential to "focal point" furniture, the right scale for present day rooms and the practical purpose which desks must serve.

Many of the best of these pieces are traditional in their inspiration. The careful shopper will be able to find a writ-

ing piece that is at once in complete accord with her 18th century decor and yet which has all the essentials of a unique style note.

Of particular interest in this regard are the corner pieces recently introduced. Both a desk and a breakfront-bookcase have been designed to fit into a living room or library corner. If rarity is a necessary quality for focal-point furniture, here it is indeed. Both of these corner pieces are thoroughly traditional in their conception. Of late 18th Century English style, each has the fine form, nice moldings and graceful brass pulls which one associates with the better work of that period.

KIDNEY SHAPE POPULAR

The kidney desk, with shelves in the back for the display of a few fine bindings and choice bits of bric-a-brac, is another type which has a strong following of style-conscious devotees who believe it to be a "must" for the room which requires writing furniture. Certainly much can be said for this charming piece.

Color

Contrast Enhances Window Box

Window boxes are a universal form of gardening. For flat dwellers, they may offer the only chance to grow outdoor plants. Even where the garden beds are large enough for planting on a comprehensive scale, the charm of the whole picture will be enhanced with tastefully planted window and porch boxes.

When you install an outdoor window box it immediately becomes a part of the house and should conform to its architectural design and color scheme.

For this reason it is well to construct your own window box, and it is not difficult to do so.

The box itself should be of

the same color as the building, or as its trim and the flowers should be of a contrasting color which is harmonious. For a red brick house, white flowers and plenty of green foliage would be attractive. For a house in which yellow is the prevailing tone blue flowers should be used. These are only suggestions, since the taste of the owner will control, of course.

The flowers must grow well, if the box is to give pleasure, and rich soil is most important, because there is so little of it. The soil should be what florists call good potting soil—a sandy loam well enriched.

To assure an adequate supply of food in the soil, a complete plant food should be mixed with the soil before it is placed in the pot at the rate of one heaping tablespoonful per gallon of soil.

The following table will be helpful:

A 4-inch pot requires 1/4 tea-

spoon.

A 6-inch pot requires 1 tea-

spoon.

An 8-inch pot requires 1 1/2

teaspoons.

A 10-inch pot requires 2 tea-

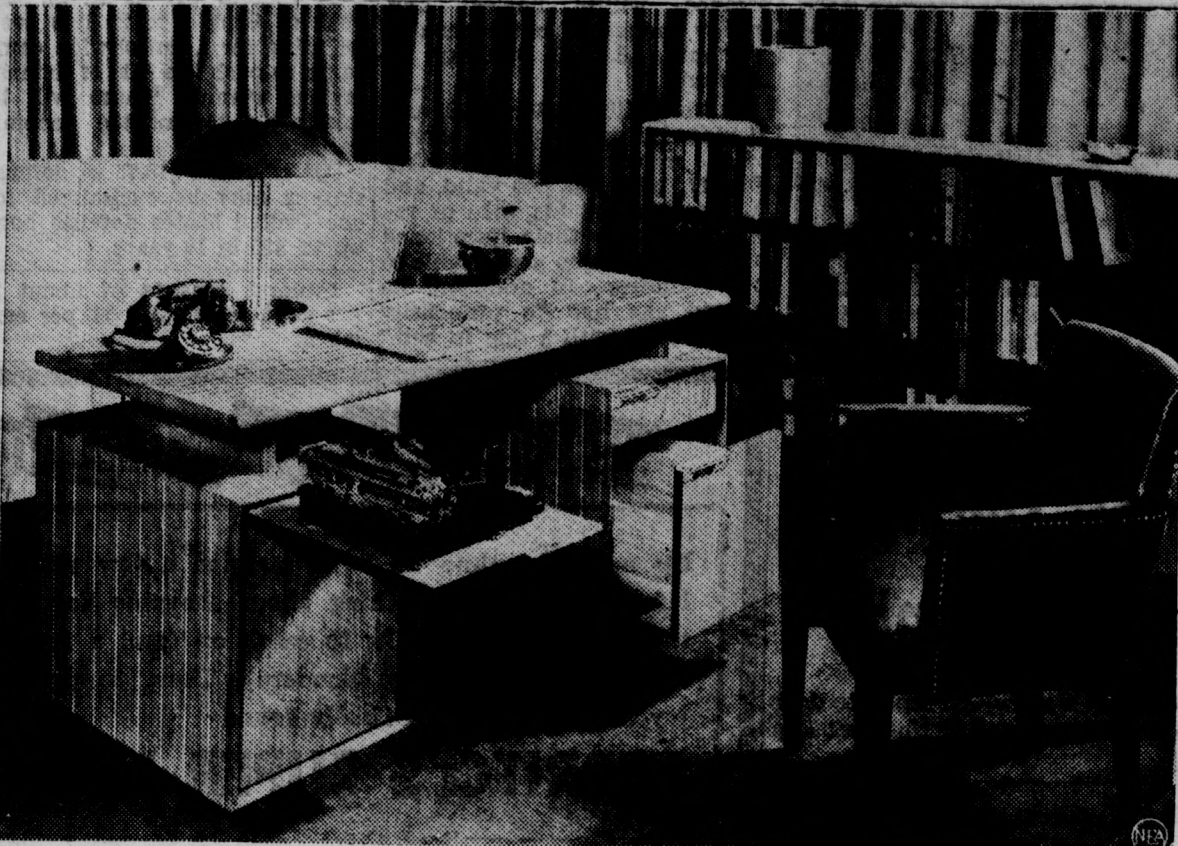

spoons.

Porch boxes require plant

food as follows:

12x24 inches require 2 1/2 ta-

For the Home Office

Perfect for the home office, living room or den is this sleek, modern desk. There's a disappearing table surface for a portable typewriter, plenty of filing cabinet and drawer space on two sides—so that mother and father can go over the household accounts together. Designed by Gilbert Rhode, it's of bleached striped walnut.

blespoonsful.

12x36 inches require 4 table-

spoonsful.

15x48 inches require 6 table-

spoonsful.

24x60 inches require 13 table-

spoonsful.

This quantity refers to the highly soluble commercial plant foods of balanced content and does not apply to much slower acting organic materials.

The best window-box flowers are those which bear continuously. In these respects the petunia has no superior. All types are long bloomers, the large-flowered single and double, the small-flowered singles, the dwarfs and the balcony types. The new fragrant double nasturtiums are fine window box material, and some of them are

of the trailing habit.

It is possible to have a window box filled with morning glories and it is hard to imagine a more beautiful decoration than their tapestry of green leaves and glorious blue flowers. They like a South exposure.

Bees are considered worth 50 times as much for cross-pollination of fruit blossoms as for the value of their honey.

Owls have eyelashes made of feathers.

TREES SHRUBS PLANT NOW!

Now's the time to prepare for beauty around your home next summer. Put in hardy trees and shrubs now and watch them grow. Get hardy, guaranteed stock. Complete nursery selection.

Accessories Require Careful Selection

Accessories should be chosen with an eye to the general composition of the room. Interest can be added to what might otherwise be dull corners through the simple addition of a bright potted plant, a terra cotta figurine, or a collection of china dogs, slippers or other hobby groupings.

A search into the pantry or the bottom shelf of the china closet may bring to light colorful plates or dishes which deserve more prominence. A set of demi-tasse cups or even doll dishes that have been hustled away into oblivion would bring a surprising number of compliments if arranged artistically on a pier cabinet, or knick-knack shelf.

Shells gathered during a momentous summer vacation at the sea shore or ash trays imprinted with some far-off cities' names, if arranged nonchalantly on the corner of a commode on the lower shelf of an end table, will keep vacation memories alive throughout the year.

The yarrow plant has been used as a love charm in many countries all over the world.

PENINSULA HOME AND GARDEN INSTITUTE

Quaint Objects Used For Odd Lamps

One would hardly expect an old fashioned brass cuspidor, an old violin, a riding boot, or an old English coffee urn of the oil burner type, to be sources of inspiration to lamp manufacturers, but there they are, sitting on the shelves of stores, waiting to be taken home to play-rooms, libraries and dens.

An old Danish silver oil lamp inspired a present day antique brass lamp, and an apothecary furnace lamp that has a key to turn the switch has been reproduced in antique sepia wood. CLASSIC DESIGNS REPEATED

Reminiscent of the lovely ware that once came from Italy is a series of lamps depicting old classic designs. For the room with a Chinese feeling, there is a hexagon vase-shaped lamp with a bow and swag in a small figured design.

A Pennsylvania Dutch girl painted on highly polished brass features a lamp designed for use in an early American room, and another has a base depicting a cluster of fruit.

LAMPS GO NATIVE

Tropical countries continue to be a source of inspiration for lamps of a truly native feeling, and on these popular furniture woods are combined with bamboo, rattan, rope and raffia. Shades often are of parchment, with tropical designs.

For some time to come lamps no doubt will be made of wood combined with leather, brass and crystal, as these combinations have proved effective for both traditional and modern settings.

Camino Villa Observes First Anniversary

Just one year ago ground was broken in Redwood City on a new real estate development—Camino Villa. Since that time, A. A. Simpson, owner and developer of the property, has seen 20 new homes constructed there and five more are under construction. An additional five homes have been sold there and are being delayed because of shortage of materials.

Subdivision of the tract and sales of the lots are being handled by the San Mateo County Realty Co.

Building contractors who are constructing homes in the tract include H. H. Weiner, John E. McCarthy and Lyle Bourquin.

Heat Aids In Keeping Well

Do your children "sniffle" day in and day out in the winter-time? Are they home from school choked up with throat and head conditions over which you seem to have no control?

Just ask yourself, is it my heating system? Are there too many fluctuations in the temperature of the home?

If these questions are troubling you, the modern gas circulating heater will be an actual investment in family health for you.

By controlling and regulating your home temperatures automatically, an even heat permeates all your rooms and gives that sense of comfort and general well-being which is so desirable for home study and activity.

Let no winter winds catch you and your family struggling along with inadequate heating facilities. Be modern and be healthy with a gas circulating heater.

Use Pink, Blue Plastic For Back of High Chair

One unique new high chair has a back made of pink and blue opaque woven plastic. Another modern touch is provided by legs of chrome steel.

Glow of Lamps Adds To Charm of Room

Have you ever stepped into a strange room and at once felt at home because of the soft, hospitable glow that met your eyes? Or have you been repelled by a harsh glare or unpleasant dim yellow light? Of course, everyone has had such an experience, but few realize the huge difference which proper choice of lamps can make.

Lamps create the atmosphere of a room at night, and serve as ornaments by day. Therefore, it is extremely important to choose the proper lamps, not only for their decorative value, but also for efficiency and proper light for reading.

It is as true of lamps as of any other home furnishings, that style is the most important consideration. Lamps may be purchased in Georgian, Chippendale, modern, Colonial, Regency or any other period design, to match other furnishings of a room.

Size is important, too. A small bedside table would look top-heavy with a large lamp which would just fit on a long library table. Proper placement of floor lamps should also be considered.

Be sure that the lamp you are buying is correctly made. Look for special features, such as a guarantee that the cord is a good one. When buying a lamp for reading, select one with special light diffusers which soften the light rays and eliminate harsh shadows and glare. The extra cost you pay for scientifically correct lighting will be more than compensated for by added comfort and ease in reading.

Does Your Comforter Slip Off the Bed?

A device for correcting the exasperating habit which satin and taffeta comforters have of slipping off the bed has been introduced by a bedding manufacturer. It consists of two elastic bands, each having a snap fastener at one end and a felt pad of hard rubber, equipped with tiny nubs, at the other. The bands are snapped onto each side of the comforter and the rubber pad is placed between the mattress and the bed-spring, anchoring the comforter firmly in place.

New 'Gadget' Saves Electric Current

A switch that reduces or shuts off current automatically, a deep-well cooker with a heat proof glass top, an oven regulator with a magnifying glass front, and a broiler that swings out when the door opens, are a few stove features that spell greater ease in cooking.

The automatic switch was added to eliminate the necessity of cooking vegetables and other foods at one heat for five minutes and then keeping an eye on the clock to be sure that the heat is lowered to avoid burning. The switch does all the timing and for that reason is also economical and convenient for one-dish meals that cook for 30 minutes and are turned off automatically.

The glass top on the deep-well cooker allows the housewife to peek at her food without risking a burned hand or face.

Kitchens Go Patriotic In Red, White, Blue

The American theme explodes into your kitchen with a red, white and blue table and chair set. The enameled metal table has a red stripe at each end, broken by a big circle of blue stars. Wooden chairs may be had with solid backs or with curved slats, both striped and starred in patriotic fashion.

New Cocktail Tables Have Functional Use

Cocktail tables have filled the need for functional furniture to such an extent that they are considered one of the "must" items in the well furnished living room. Now divided into sections, they double or triple their utility value in the home.

One model winning current acclaim is divided in the center, revealing a sunken copper tray in cherry, while another has sections which, when used together, form one long table, and when separated, can be used in any part of the room. Mahogany or leather used on top, any in a bleached toasted finish has three sections, the center section duplicating in size the two end pieces which are hinged to it. The homemaker may allow it to remain a long straight table, or make it conform to a corner sectional sofa by the formation of a right or left L-shaped table. Traditional in feeling, this piece comes in a dark finish, but there's a lighter finish available for use in modern rooms.

Two small tripod base tables cleverly pull out from the ends of a three-in-one cocktail table to take their places wherever needed, quickly. Another, fashioned after a banquet table, has two extension leaves and an all leather tooled top.

Man Involved In 2 Crashes

A pedestrian was killed and more than a score of persons were injured in weekend accidents in San Mateo County during extremely heavy traffic.

Henry Maldonado, 38, a laborer living at San Mateo, was killed instantly Sunday night as he attempted to cross Bayshore Hwy. en route to a gasoline station. He was the county's 45th traffic victim this year.

He was struck in the fast lane by the car of Arthur G. Wallin, 21, Daly City, although Wallin swerved in an effort to avoid him.

THREE INJURED HERE

Three persons were injured Saturday night in a collision of two automobiles at the intersection of Middlefield Rd. and Maple St., Redwood City. Cars involved were driven by Fred Meyers, 56, Los Angeles, and Willard R. Ballam, Redwood City.

Ballam's 7-year-old son, David, suffered an injured nose and Betty Rewter, 54, Redwood City, suffered rib fractures. Florence Miller, 50, Los Angeles, was treated for rib fractures.

The second of two accidents in which his motorcycle was involved on Bayshore Hwy. brought critical injuries to William Robertson, 31, San Mateo. A woman companion was seriously hurt in the first mishap.

Robertson suffered a probable skull fracture when his motorcycle skidded in gravel and overturned on the shoulder of the highway in East Palo Alto. He was taken immediately to Community Hospital, where he was still unconscious Monday.

MOTORCYCLE HITS ROCK

A companion, Edith Coffey, 31, of Mountain View, had suffered a possible fracture of the spine and left hip and contusions a short time before when the pair was crowded off the highway near Mountain View. She was taken to a hospital at Mountain View for treatment, and Robertson started to ride to San Mateo.

His motorcycle evidently hit a rock and spun out of control. State Highway Patrol officers said.

Frank Del Frate, 28, of South San Francisco, suffered severe facial lacerations early Sunday when his automobile smashed into a pole on Grand Ave., South San Francisco. He told police he fell asleep. He was treated at South San Francisco Hospital.

CAR HITS HOUSE

Paul Sisevich, 49, of San Mateo, suffered possible fractures of the ribs, a chest injury and forehead lacerations Sunday when his automobile and one driven by Jack B. Wood, San Mateo, collided on El Camino Real near 39th Ave. Sisevich's car careened across the highway and hit a house at 3950 El Camino Real after the impact. He was treated at Mills Hospital.

Five persons were injured in a collision at 19th Ave. and Bayshore Hwy., near San Mateo, Saturday night.

Mrs. Martha Downey, 23, of Mountain View, driver of one car, suffered a fracture of the right leg. Mrs. Jane Steele, 73, of Arkansas, had bruises and possible rib fractures. Mrs. Dene Downey of Mountain View was bruised. Pvt. Edwin Hanson, 19, Moffett Field, suffered a fracture of the shoulder. Otis G.

Derry, Prein Win Menlo Park Contests

MENLO PARK—A "Week in Old Menlo" opened today with the election of two Lions Club candidates as sheriff and judge to rule over the week's festivities.

Edward J. Derry was elected judge and Joseph H. Prein was named sheriff when the ballots were counted here this noon.

Prein immediately named four deputies: Arnold Van Epern, Dick Crawford, H. C. (Dad) Stewart and Robert H. Berchenall. Stewart was a close contender in the election race for sheriff. Mrs. Mae Blaisdell was second in the count for judge.

Opening day activities will feature the old timers' dinner tonight at 7 o'clock in Central School auditorium.

Gilson, 20, of Los Gatos, with whom he was riding, was bruised.

Junior Chamber Group Hears FBI Chief

Nat L. Pieper of the Federal Bureau of Investigation and Col. Enrique Caldron, Mexican consul general of San Francisco, were weekend speakers at a meeting of the California Junior Chambers of Commerce at Santa Cruz.

Pieper spoke on the FBI's work in national defense and the consul general's topic was Pan-American relations.

The Sunday luncheon meeting at the Casa Del Rey was a testimonial dinner for Joe Leavitt of San Jose, a former vice president of the national organization.

Attending the meeting from Redwood City were W. E. Morrissey, state vice president; H. D. McKay Jr., state director; Floyd F. McCue, president of the Redwood City club, and J. Robert Bristow, director of the local organization.

Rites Set Wednesday For Dr. J. W. Million

Funeral services for Dr. John W. Million, who passed away Friday at a San Mateo hospital after an illness, were held Wednesday at 2 p.m. in the First Baptist Church, Redwood City, of which he was an active member. Dr. Million, formerly president of a college at Mexico, Mo., and of Des Moines University, also taught a Sunday School class at the church.

The funeral was conducted by the Rev. Rowland T. Edgeworth, present pastor of the church, and the Rev. C. H. Gatchell, pastor emeritus. Burial will be at Alta Mesa Cemetery. Friends may call at the Layng & Tinney Funeral Home till 1 p.m. Wednesday.

Mr. Million is survived by his wife, Helen L. Million, four children, two brothers and a sister.

The chief sources for cork are Spain and Portugal.

Materials Shortage Meet Set

A meeting of representatives of groups interested in solving the building materials shortage problem facing San Mateo County's construction industry will be held in San Mateo on Sept. 22 under auspices of San Francisco Peninsula Inc.

The meeting, an outgrowth of discussions by the board of directors of the Redwood City Chamber of Commerce and other groups throughout the county relative to assuring an adequate supply of building materials, will be attended by county officials, presidents and secretaries of chambers of commerce in the county, representatives of the San Mateo General Contractors Association, building material dealers and financial institutions.

T. J. (Jerry) Hallinan, president of SFPI, said those attending the dinner meeting would be asked to co-operate in a program to have San Mateo County designated as a defense area and thus receive priority consideration from the federal government in allocation of materials for residential construction.

If surveys are required to establish the need of priorities in the county, funds from SFPI's promotional and advertising account could be expended, Hallinan pointed out.

At present there are very few residential vacancies in San Mateo County, surveys have shown, and heavy defense industries—particularly in the northern end of the county—require residential expansion.

"The question of supplies of materials is of vital importance to San Mateo County because the building of homes has constituted its major industry," Hallinan said.

"If the building program should be shut down, the effect on merchants, property owners and construction groups would be disastrous.

"While San Francisco has been designated as a defense area—presumably including San Mateo County—the percentage of vacancies in San Francisco precludes any allotment of priority numbers for building materials.

"The purpose of the coming meeting is to find ways and means of establishing this coun-

Enrollees' Last Call

An indorsement from Edward R. McDonald, county supervisor and temporary chairman of the San Mateo County Defense Council, this week marked the beginning of this week's final drive for company quotas in both the air and infantry divisions of the county unit of the California State Guard.

"We of San Mateo County," McDonald stated, "are desirous of getting a complete unit of the California State Guard as quickly as possible, whereby we can do our share for the defense of our country in our own county."

Fifteen more men are needed in the infantry before the local unit will reach its quota and be officially accepted into the state guard organization, according to Ronald F. Kaehler, newly-elected commander of the unit.

For the air division only six more men are needed, it was revealed by J. C. (Jim) Whittaker, veteran pilot and a leader in the group. Whittaker said that he will fly to Sacramento tomorrow or Friday to arrange for the presence of state officials in an official induction ceremony at the earliest possible date.

A meeting of the county guard unit as a whole will be held tonight at Burlingame High School gymnasium.

Participating in a flight over the county Monday were 11 planes and 23 members of the air unit. Pilots included Whittaker, Col. Earl Popp, Capt. George Richards, William Rid-nour, Seymour (Tex) Davison, Marvin Franklin, Ross Morley, Miles Cooper, A. Grant Harris.

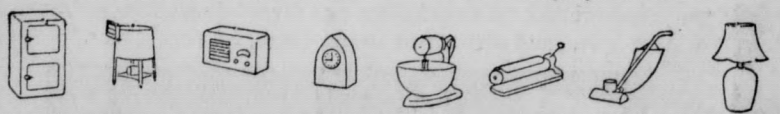

Picket Assaulted At Service Station

An altercation between a union picket and an unidentified person that took place in front of the Richfield Service Station at Middlefield Rd. and Main St. around 1 p.m. Monday, resulted in the picket's being given emergency medical treatment here.

The picket was Thomas Demanago, who resides in San Francisco. Harry Starling, business agent for Garage and Service Station Employees Local 556, reported the alleged assault.

ty as a defense area without tying it in with the San Francisco city area."

THE ELECTRIC RANGE IS CLEAN AND FAST AND LOW IN OPERATING COST!

MAN NEXT DOOR SAYS

"Electricity does a lot of things in my house. I get my money's worth at the same low cost."

Each year thousands of California women carry through to the next logical and economical step of home electrification. They let electricity take charge of the cooking in their kitchens. They know from experience how clean and how fast and small in cost has been the electric sweeping, electric washing and electric refrigeration they have been enjoying for years. Then they add electric cooking as the clean, fast and practical method of healthful food preparation.

Why not select a handsome, automatic electric range for your kitchen right now? For boiling, frying or roasting or baking you will find a new electric has all the speed and dependable variations of heat you would ask for in any range. You will like the way it takes charge of cooking without your having to stand by, watching and fiddling. Most pleasing of all will be its amazing thriftiness. Electricity for cooking sells at an unusually low rate. This assures low operating cost for your electric range. Buy your electric range now while prices are still low and a wide choice of models is still available. Start shopping for your electric range today!
